

Dear ma'am,

I hope you are doing well. I understand that the assignment asks for a short analysis, and I have placed that short version first in this submission.

I had previously written a longer and more fleshed-out analysis of the same work. I have included it after this note for reference.

If you desire and have the time, I would be grateful if you could kindly go through the longer version as well.

Thank you for your time and consideration.

Sincerely,

Kshitish Kumar Ratha
